About Me

I am a junior Front-End developer with 2 years of experience. I have knowledge of HTML, CSS, and JavaScript. I also have experience working with libraries and frameworks like React.js and Next.js. I pay special attention to writing clean and quality code. I have skills in fully adapting websites for different devices. As a junior developer, I am always in the process of learning and improving my skills.

Hard Skills

- SASS

⌚ CI/CD

- GitHub
- Vercel

🛠 Tools

- VSCode
- Figma
- PhotoShop
- Chrome DevTools
- Spline

📦 Other

- Rest API
- Terminal
- Webpack
- Gulp

🖌 Design

- UI/UX Design
- Semantic and Responsive Design

🌐 Speaking languages

- English - B2
- Spanish - B2
- Romanian - native
- Russian - native

Soft Skills

👤 Interpersonal Skills

- Empathy
- Humor
- Networking
- Tolerance
- Diplomacy

⌚ Time Management

- Stress management
- Organization
- Planning
- Goal setting

💬 Communication

- Verbal communication
- Written communication
- Constructive feedback
- Active listening

👥 Teamwork

- Collaboration
- Idea exchange
- Mediation

💡 Problem-solving

- Analysis
- Logical reasoning
- Observation
- Brainstorming

✍ Creativity

- Imagination
- Experimentation
- Questioning

Work Experience

Frontend Developer (Freelance)

 UpWork

Seville, Spain

Part time

Jan 2023 - Now

Pet Projects

Portfolio www.lucadevelop.com

In this project, I utilized **HTML**, **Tailwind CSS**, and **JavaScript** to create a dynamic web experience, showcasing my personal abilities as a Front-End developer, and presenting my projects. Powered by **Next.js** and **React.js**, I introduced a sleek **dark theme** and **seamless animations**. With **internationalization**, this project connects with users worldwide.

Rick and Morty www.rickandmorty.lucadevelop.com

Explore the Rick and Morty web page, where I harnessed the **Rick and Morty API**, **React.js**, **Next.js**, and **TypeScript** to create an immersive experience. With **Tailwind CSS**, I crafted a sleek and responsive design that brings the world of Rick and Morty to life. One of the standout features of this project is **Server-Side Rendering (SSR)**, ensuring fast and optimized content delivery. As you navigate the site, you'll experience lightning-fast load times and smooth transitions, thanks to skeleton loading, which provides a seamless user experience.

This project is a testament to my expertise in web development, highlighting the fusion of technology and creativity in the world of Rick and Morty. Explore the multiverse, discover your favorite characters, and enjoy an engaging and dynamic website!

Education

Master in Financial Management

 University "Aleco Russo"

Balti, Moldova

Full time

Sep 2012 - May 2014

Degree in Accounting

 University "Aleco Russo"

Balti, Moldova

Full time

Sep 2009 - May 2012

Hobbies & Interests

Traveling

Make and plan annual trips to different countries to experience new cultures.

Active sports

- Gym
- Cycling
- Canoe

Drawing
